EXECUTIVE SUMMARY

Motivated Java Full Stack Developer with a foundation in Java, Spring Boot, HTML, CSS, JavaScript, and SQL. Skilled in developing responsive web applications and working with both front-end and back-end technologies. Familiar with OOP concepts, Git, databases, debugging, and software development practices. A quick learner with strong problem-solving skills and a passion for building practical and user-friendly applications.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering

2023 – 2027

Annai Mira College of Engineering and Technology, Arappakkam

CGPA: 84.8

PROJECTS

AI E-Commerce Website *React, Tailwind CSS*

- Developed a responsive e-commerce frontend using React.js and Tailwind CSS with a modern and user-friendly interface.
- Built reusable React components for product listings, product details, navigation, and other UI elements.

Virtual Viva Preparation Assistant

- Developed an AI-based Viva Preparation Bot providing viva-related questions, answers, and explanations.
- Designed interactive learning support to improve students' subject understanding and preparation.

AI Resume Analyzer & Job Recommendation System

- Built an AI-based application for resume analysis and ATS score calculation.
- Identified missing skills from resume content and implemented job-role recommendation functionality.
